## RESORT 2019

Rejoice for resort! This booklet shows a sampling of the hopeful, whimsical collection which delightfully arrives as winter approaches, promising to ease the transition. It's all about bright colors, playful prints, and the excitement of putting new outfits together! We are always thinking of how to cater to our customers, which is why we offer some vibrant, jazzy pieces that can be worn with sandals and some subtle silhouettes that can be worn with tights and booties if your climate demands.

We're pleased to welcome our newest boutique in Sarasota, Florida and are already in love with the friendly residents who have expressed their excitement so enthusiastically. Our customers' kind words and support of our mission to make clothes in the USA and help our neighbors is why we continue to come into work with a smile every morning. Thank you for that!

One of my favorite items from this collection is the buffalo check taffeta shirt dress on the cover because it would suit a fancy party or a lovely outdoor lunch just as easily. It's a silhouette our loyal tribe has seen before that has been reinterpreted in a fresh new way with a reversible sash (it's yellow on the other side!) As usual, this booklet is only a taste of the collection. Check in with your local Sara Campbell boutique to see which items they carry or call any store to place your order; the team will be happy to help!

Hooray!
